## REVIEW OF THE TRADE OF HIS EXALTED HIGHNESS THE NIZAM'S DOMINIONS FOR 1340 FASLI (1930-31)

*Introduction.* —This is the first attempt to publish Trade Statistics for Hyderabad State and the figures now produced are admittedly imperfect. They have been collected by the Customs Department with the aid of a special staff employed for the purpose. The classification follows generally the lines adopted for the British Indian Trade Reports, but with much less detail. The number of heads are not as many as are to be desired ; as the Customs Commissioner considered the staff at his disposal not competent enough to record. As might be expected in the first year, mistakes have been made ; but it is hoped that in the succeeding years the recording will improve, especially in respect of duty-free goods, the value of which cannot be considered reliable at present. The alteration in the headings makes it difficult to compare the results of this year's trade with that of previous years, and it is only possible to comment on very broad divergences of trade with any degree of accuracy. Even within these limitations, it is hoped that the figures will be of interest and use to the public and that in each succeeding year, they will be of greater value. The delay in publication is due to difficulties in the preparation of the returns.

**2 General Summary.** —The recorded figures for 1340 Fasli as given in Statement No. 1, show that the total trade of the State decreased in value from 40 crores in 1338 Fasli and 39 crores in 1339 Fasli to 26½ crores, a decrease of 34 per cent. and 32 per cent. respectively. The chief decrease was in exports, which fell from an average of nearly 21 crores in the two preceding years to 13½ crores in 1340, a decrease of over 30 per cent. Imports were slightly better maintained and fell from the average of rather over 18½ crores in the preceding years to 13 crores in 1340 Fasli a drop of about 30 per cent. only. The main cause of this decrease lay in the great fall in prices rather than in a decrease in the volume of trade, since many of the chief commodities which were imported into and exported from the State fell in value by the same amount as the value of trade decreased or even further. For instance, the exports of raw cotton, which is the chief article of trade in the Dominions, fell from 2,770,000 to 2,200,000 maunds only in volume, *i.e.*, by 20 per cent. whereas their value decreased from 9.23 crores to 4.08 crores, *i.e.*, by over 55 per cent. Again, the exports of ground-nuts increased in volume from 3,570,000 maunds to 5,341,000 maunds whereas the total value exported was slightly less than the preceding year. The great decrease in trade was, therefore, due mainly to a shrinkage in values rather than to a reduction in volume.

**3 Imports of merchandise.** —The most important items of import are cotton piece-goods, cotton twist and yarn and grain, pulse and flour. Imports of cotton piece-goods decreased in value from 3.29 crores to 1.91 crores and those of cotton twist and yarn from 90.78 lakhs to 63.13 lakhs, *i.e.*, by about 50 per cent. and 30 per cent. respectively. Grain, pulse and flour, the imports of which in 1339 Fasli totalled 2.04 crores were this year valued at 1.56 crores only, of which rice accounted for 1.03 crores and wheat for 17 lakhs. No other single item equalled these in importance, but other noticeable decreases were as follows : (1) Silver bullion shrank from 66 lakhs to 21, while (2) Gold bullion decreased from 52 lakhs to 3 lakhs. (3) The value of horned cattle was only 13.33 lakhs as against 29.19 lakhs and (4) that of sheep and goats was 5.48 lakhs as against 12.06 lakhs in the previous year. (5) Machinery and mill work decreased from 51.90 lakhs to 12.04 lakhs, (6) Galvanised iron, plain and corrugated iron sheets from 24.24 lakhs to 6.96 lakhs ; (7) Motor cars, motor cycles and accessories from 33.30 lakhs

to 19 32 lakhs ; (8) Hides and Skins from 15 17 lakhs to 3 87 lakhs, (9) Sugar from 69 85 lakhs to 59 88 lakhs and (1) Kerosene oil from 44 29 lakhs to 39 53 lakhs. An interesting decrease is in the value of matches which fell from 13 02 lakhs to 9 21 lakhs, i.e., 29 per cent. owing principally to an increase in the output of local factories. The few instances of noticeable increase in value were those of (1) Petrol, which rose from 19 58 lakhs, to 22 37 lakhs, in spite of a slight falling off in volume ; (2) Cinema films which increased from Rs. 73,000 to 2 86 lakhs, (3) Electrical-goods which rose from Rs. 3 79 lakhs to 6 70 lakhs and (4) Silk, yarn and piece-goods, which appear to have increased in value from 15 77 lakhs to 21 68 lakhs. In addition to these specified goods, a large number of stores are imported free of duty by Government departments, the British Garrison, the Residency Staff and Singareni Collieries. The total value of these amounted to 72 lakhs in 1340 Fasli as against 70 lakhs in the preceding year while the Railway stores imported in 1340 Fash are returned as valued at 39 27 lakhs.

4. *Exports of merchandise.*—The chief item of export, as already mentioned, is raw cotton, and the value of this declined from 9 23 crores to 4 08 crores. Ground-nuts, shelled and unshelled, declined in value from 3 48 crores to 3 24 crores but increased in volume by nearly 50 per cent. Exports of castor seed rose in value from 1 15 crores to 1 19 crores, but increased in volume from 1,725,000 maunds to 2,400,000 maunds. Cotton seed also showed an increase of over 10 per cent. in volume but declined in value from 76 21 lakhs to 39 lakhs. Exports of Jawar declined from 63 10 lakhs to 26 72 lakhs, dry chillies from 24 lakhs to 12 lakhs, horned cattle from 21 30 lakhs to 14 lakhs and timber from 10 84 lakhs to 2 54 lakhs. Almost every item on the list showed a decline and the only important increase was under (1) cement from the Shahabad Cement Works, which increased in value from 26 to 46 lakhs. Another interesting increase was that of (2) Oil cakes which increased in value from 14 20 lakhs to 16 77 lakhs, although vegetable oils showed a decrease from 33 61 lakhs to 31 79 lakhs. (3) Export of Crushed-bones also increased from Rs. 85,000 to 94,000. These three items represent an increase in the manufacturing capacity of the State and form one of the few redeeming features of the statistics of a disastrous year for trade and commerce not only in Hyderabad but throughout the world.

- N B** —1. The Customs Revenue includes Incomes of (a) the Customs duty. (b) Octroi (c) Fines (d) Sales by auction (e) Godown charges (f) Miscellaneous
2. Separate figures showing the income of Octroi, are available from the year 1312 F (1902-3) onwards
3. Under the Customs Re-organisation Scheme the Mahbubnagar Petha has been brought under the Gulbaiga Mahsulkhana from 1338 F. (1928-1929)
4. Under the Customs Re-organisation Scheme a new Mahsulkhana has been established at Bir since 1338 F (1928-29).
5. Probably the Customs House at Lingsugur Cantonment was transferred to Yermaias from 1293 F. The Cantonments of Jalna, Hingoli, Mominabad and Yermaias were abolished from 1304 F. The incomes from Jalna and Hingoli were collected at Aurangabad, and that of Mominabad Cantonment at Osmanabad and of Yermaias Cantonment at Gulbaiga
6. From 1297 to 1308 the Nanded Post-office Customs Office was transferred to Aurangabad, and from 1309 Nanded Post-office Customs House was transferred to Godaverry.
